Schaamteloos-DJs is a cooperation between two good friends, Jan Boom and Branko van Hilten long term residents of the famous Amsterdam club Panama\*.

Together they have a chemical fusion of mixing and producing funky tech house music which rubs off on their audience who clearly see that one plus one equals more than two. As a team they think they can make a difference in the electronic scene and let people enjoy their unique sound.

Schaamteloos-DJs skills lie largely in their ability to warm-up the night, starting gently and setting the tone of the evening. They are renowned throughout the Netherlands for a sublime mix of tech-house, techno and progressive, and many a top DJ has commented to them on their superb ability to warm-up a room expertly.

These days, Schaamteloos-DJs' bookings see them guest in clubs throughout the Netherlands and Belgium at peak time, a different skill entirely, but one that they have become equally renowned for.

Schaamteloos-DJs played alongside the likes of John Digweed, Deep Dish, Nick Warren, Danny Howells, Jimmy van M, Sin Plomo (in bed with space), Pete Tong (BBC Radio 1), Dave Seaman, Nic Fanciulli, Sister Bliss, Guy J and Mark Knight to name a few.

In 2008 Schaamteloos-DJs saw their first ever remix released on Pure Substance Records. Later that year their remix of Aber – Start Line was signed by LuPS Records. With more focus on further developing their production skills they already have three more remixes in the pipeline and their own productions are in the process of being signed for release as well.
